To make your reservations, visit https://b-com.mci-group.com/Registration/PWE2016.aspx
9:00 - 9:15 Welcome and Opening Remarks
Raju Parulkar, President, Indian Pest Control Association, Mumbai, India; Dominique Stumpf, CEO, National Pest Management Association, Virginia, USA; Chief Guest

9:15 - 10:00 What if We Lived in a World Without Pest Control?
Faith Oi, Ph.D., University of Florida, Florida, USA
The development of modern pest control practices has resulted in significant public health benefits around the world. But what would happen if pest control didn’t exist? What impact would pests have on our food supply, health, and structures? In this insightful session, participants will get a glimpse into “a world without pest control” and come away with a renewed sense of pride in the important work carried out by our industry.

10:00 - 10:45 Green Termite Management
Anil Rao, Pest Control (India) Pvt. Ltd., Mumbai, India
Sponsored by

10:45 - 11:15 Refreshment Break

11:15 - 12:00 Building Integrated Pest Management Into Structures for Better Public Health
Bobby Corrigan, Ph.D., RMC Pest Management Consulting, New York, USA
Controlling and preventing pests in structures is critical to public health. Pest prevention is rarely considered when designing and building structures, but simple modifications to existing buildings and attention to detail in design can result in significant decreases in the immigration of pests into structures. Learn how pest prevention can be integrated into buildings to reduce pest populations in sensitive environments.

12:00 - 12:45 Global Evolution of the Pest Management Industry – Insights from India and the United States
Dennis Jenkins, ABC Home and Commercial Services, Texas, USA; Anil Rao, Pest Control (India) Pvt. Ltd., Mumbai, India; Ravi Sachdeva, American Pest Management, Kansas, USA
Today’s pest management industry looks completely different from the industry of ten or twenty years ago. Twenty-first century clients expect well-trained, professional technicians who are well prepared to provide high-quality services in complex environments. In this session, hear from successful businesses in the United States and India about their experiences and what to expect in the future.

12:45 - 14:00 Visit to Exhibit Hall and Lunch

14:00 - 14:45 Termite Management and Challenges to Success
Su Yee Lim, Ph.D., Bayer, Singapore
Sponsored by

14:45 - 15:30 Bed Bug Management Strategies for Commercial and Residential Clients in India and Asia
Chow-Yang Lee, Ph.D., University of Malaysia, Penang, Malaysia; Dini Miller, Ph.D., Virginia Polytechnic and State University, Virginia, USA
Bed bug management is an essential part of the professional pest management business model. Gaining successful control in residential and commercial settings can be a challenge and should be carefully considered. In this session, researchers from North America and Asia will collaborate to provide the most up to date information about practical methods for controlling bed bugs in a variety of environments.

15:30 - 16:00 Refreshment Break

16:00 - 16:45 Rodent Control in Large Commercial and Residential Complexes
Bobby Corrigan, Ph.D., RMC Pest Management Consulting, New York, USA
Managing pest rodents in densely populated city environments requires an understanding of rodent behavior, human behavior, and urban infrastructure. In this session, learn strategies for reigning in rat populations from the leading authority in rodent control, including lessons from extensive field work in New York City that can be immediately incorporated into your company’s protocol for rodent management services.

16:45 - 17:30 Importance of Fumigation Services, Safety and Future Prospects
Patrick Goosens, InTech Pharma, Goa, India
Fumigation is a highly specialized segment of the professional pest management industry that requires well-trained technicians to successfully provide safe and effective treatments. In this session, you will learn about the importance of fumigation, key safety considerations, and gain insight into what the future holds for this indispensable group of pest control products.
Sponsored by

17:30 - 18:15 Educational Session TBD

19:30 - 22:30 Gala Dinner and Cocktails with Cultural Program
9:00 - 9:45
A Regional Approach to Termite Behavior and Biology for Pest Management Professionals
Chow-Yang Lee, Ph.D., University of Malaysia, Penang, Malaysia
Termites are one of the most destructive pests worldwide. Understanding the behavior of the economically important species in the region is an important first step into developing an effective control program that can be implemented in the field. In this session, the challenges associated with termites and their control will be explored within the context of the latest termite control research.

9:45 - 10:30
Integrated Pest Management in Commercial Facilities – Challenges, Control Strategies and the Importance of Client Communication
Faith Oi, Ph.D., University of Florida, Florida, USA
Integrated pest management in commercial facilities can be a challenging undertaking and should not be taken lightly. In fact, some of the best strategies for effective IPM in commercial facilities incorporate significant “buy in” from the client. Communicating the importance of IPM and each party’s role in the process is integral to the success of any large scale program.

9:45 - 12:30
Professionalism in the Pest Management Industry - Developing a High Quality Workforce to Increase Public Perception
Minoo Bharucha, Pest Control Associates – AMB, Mumbai, India; Dennis Jenkins, ABC Home and Commercial Services, Texas, USA; Ravi Sachdeva, American Pest Management, Kansas, USA
Clients have come to expect higher and higher levels of professionalism from their pest management provider. In order to successfully compete in this demanding marketplace, companies find that increasing levels of training and development are required to prepare technicians for the task. In this session, learn what three leading industry companies are doing to prepare their workforce and increase the public perception of the industry.

10:30 - 11:15
German Cockroaches – Control Challenges and Impacts on Public Health
Dini Miller, Ph.D., Virginia Polytechnic and State University, Virginia, USA
The German cockroach is one of the most ubiquitous pests on earth. It is found in association with humans on every continent and has been implicated in the physical transmission of food borne pathogens resulting in illness. Cockroaches have also been recently connected with asthma and allergies in children, magnifying the importance of managing populations in the most effective manner possible. This session will focus on understanding the existing challenges and developing cockroach management strategies to protect public health.

11:15 - 11:45
Refreshment Break

11:45 - 12:30
Urban Mosquito Control: Developing an Effective Management Program for Your Clients
Anil Kumar Makkapati, Ph.D., Reckitt Benckiser, Gurgaon, India
Mosquitoes are considered to be the most dangerous animal on earth due to their role as vectors that cause disease in humans. Developing an effective mosquito control program that can be carried out by pest management professionals can be challenging, but extremely rewarding. In this session, learn the scientific underpinnings of successful mosquito control programs and how to implement an effective protocol for your customers.

12:30 - 13:15
A Rising Tide Lifts All Boats – Professional Certification in the Pest Management Industry
Jim Fredericks, Ph.D., National Pest Management Association, Virginia, USA; Chris Stelzig, Entomological Society of America, Maryland, USA
Professional certification programs like the Entomological Society of America’s Associate Certified Entomologist-International (ACE-I) certification can help pest management firms differentiate themselves from the competition. In this session, learn about the need for certification, the positive impact that certification can have on your business, and how you and your team can get the process started today.

13:15 - 14:00
Lunch

15:00 - 17:30
Exhibit Hall Open

19:30 - 22:30
Cocktails and Dinner
Hosted by the National Pest Management Association in partnership with the Indian Pest Control Association
