Commercial Pesticide Applicator Training

UNH Cooperative Extension will host a series of all-day trainings for those seeking a supervisory registration certificate from the NH Department of Agriculture: Division of Pesticide Control.

Training will prepare participants for the state of NH certification exam. Instructors will review the information found in the National Pesticide Applicator Certification Core Manual, NH Code of Administrative Rules, and the following categories: Turf (G2), Ornamental (G1), Right-Of-Way (B), and Mosquito, Biting Fly & Ticks (F2).

New Hampshire requires that anyone applying pesticides commercially must be certified as a commercial pesticide applicator. This certification is required regardless of whether the applicator gets paid for the service or the pesticide is classified as general or restricted use. This includes over-the-counter homeowner-type pesticides.

Courses & Dates:
Core: 09/17/19 OR 09/25/19
Turf (G2): 09/18/19
Ornamental (G1): 09/19/19
