About This Year's Speakers:

For complete speaker biographies, please visit: www.wisconsinpest.com

Jim Fredericks, PhD, BCE, Vice President, NPMA

Jim is the Vice President of Technical and Regulatory Affairs for the National Pest Management Association. Jim is responsible for all aspects of technical publications, services, education, and training, as well as providing strategic direction to NPMA's State and Federal regulatory efforts. Jim is a Board Certified Entomologist and holds a PhD in Entomology from the University of Delaware. Prior to joining NPMA, Jim was Technical Director for Home Paramount Pest Control, a large Pest management firm in serving the Mid-Atlantic, where he served for 11 years.

Sara Knilans, Midwest Technical Representative, Bell Laboratories

Sara, who holds a BS degree from the University of Wisconsin-Madison, has been with Bell Labs nearly a decade. Currently the Midwest Technical Representative, Sara covers 9 states in the upper Midwest. She has been responsible for training all new Bell Sales personnel, conducting Bell Plant tours, and was the Mole Product Coordinator for Talpirid. Sara has extensive rodent control experience, having consulted on hundreds of trouble account inspections and has shared her experiences at many pest control educational events.

P.J. Liesch, UW Madison Insect Diagnostic Lab

P.J. holds degrees in biological sciences (B.S., UW-Parkside) and entomology (M.S., UW-Madison), and has been managing the UW-Madison Insect Diagnostic Lab since March, 2014. PJ has been involved with insect-related research, outreach and Extension since 2005. He is a regular speaker for the Master Gardener program, the WI-First Detector Network, the WI-Pesticide Applicator Training program, and UW Farm and Industry Short Course programs. PJ is an avid insect collector and has an inordinate fondness for beetles.

Alex Milovic, PhD, Adjunct Assistant Professor, Marquette University College of Business

After spending over 8 years in various sales, marketing, and IT roles for Black and Decker, Weaver Partners, and Goldman Sachs, Alex is now teaching courses in sales, sales management, and consumer behavior. Additionally, he is developing a Sales Program in the Marketing Department which will combine leading-edge sales curriculum with practical hands-on experience. He holds a BS in Marketing from Towson University, a BS in Management Information Systems from UNC-Charlotte, an MBA in Marketing Strategy from DePaul University, and a PhD from the University of Wisconsin-Milwaukee.

Stuart Mitchell, PhD, BCE, MPH, Principal Technical Specialist, PestWest USA

Stuart is an observing physician, consulting clinical psychologist, and an entomologist board certified in medical, veterinary, urban, and industrial entomology. Currently, he serves as Principal Technical Specialist for PestWest USA, Technical Editor for Pest Management Professional Magazine, and as an expert witness for the Lipman Law Firm.

Mike Murray, Pesticide Program Manager, WDATCP

Mike manages programs for the certification and licensing of pesticide applicators and commercial businesses, and licensing of restricted-use pesticide dealers. Mike provides information and clarification on pesticide use policies and rules to the regulated community, the public and other agencies. He serves as an advisory board member for the Wisconsin Pest Control Association. Mike is also leading the creation of Wisconsin's first pollinator protection plan.

Beau O'Hara, Anstar Products

Beau O'Hara has a BS degree in Human-Computer Interaction and is expert in designing and implementing effective computer interfaces between systems and people. He has a substantial portfolio in web/software development and honed his skills working at Chicago-based companies like Gorilla Group and Harpo Studios. Beau's leap to pest control was a natural choice. He grew up in the pest control industry and is the son and grandson of pest control company owners and operators.

Roberto M. Pereira, MS, PhD, Research Scientist, Urban Entomology Lab, University of Florida

Roberto is an entomologist with a BS in Agriculture from the "Escola Superior de Agricultura Luiz de Queiroz" - University of São Paulo, Brazil, an MS from Cornell University, and a PhD from the University of Florida. In his role at the University of Florida, Roberto assists with research, education, and extension in several areas of urban entomology, including ants, cockroaches, termites, bed bugs, flies, mosquitoes, and other pests.

Arnold Ramsey, FMC Midwest Market Specialist

Arnold currently serves FMC Corporation in the position of Midwest Market Specialist. His career at FMC has also included 2.5 years as a formulations chemist, 4 years working in residue (analytical) environmental chemistry, and 4 years as a corporate technical representative. Prior to his employment with FMC Corporation, Arnold served as a US Marine and also worked as a pest management professional for the US Department of Defense.

Mark D. Sheperdigian, BCE, Rose Pest Solutions

Mark has been working in the urban pest management industry since April of 1983, after graduating from Michigan State University in 1982 with a BS degree in Entomology. During that time, he has held a variety of positions in service, sales, management and technical support. In January of 1987, he joined Rose Pest Solutions in Troy, Michigan where he currently serves as Vice President of Technical Services. He is a regular invited speaker to many conferences and training courses.
